

Hello, my name is Elmira, and i wanna talk about why, in my opinion,
„ language is the road map of a culture.
It tells you where its people come from and where they are going.“

Let's begin!

At first, i would like to tell you about my native languages, tatar and russian. Sadly, i can't speak on my first language, but russian i know pretty well.

So why, i think that's peop language is the road map of culture?
It's simple. Every language have their own words, different meanings of words from other languages, etc. As for me, it's really interesting, to know something more about other cultures from their language. Only after conversation with people of different ethnic groups, you can find new many facts about them, and

became more aware about their nationalis

Even more, you can teach their language and be more ready to understand other culture.

Because of language, people speak on, you can tell where they are from, where they are going. Chinese for example, when you hear chinese words, you know that man, who you speak with, from China, or maybe he just on his way to China.

Language is very important thing in our lives, we can communicate, because of this.

That's all i wanted to say, thanks for your attention
